Soft

by Luca and co

---

experimenting with how we are hardlined about being soft

how we are serious about playing

how quickly we can connect to the power of slowness

all in search of connecting to our joy for the natural world.

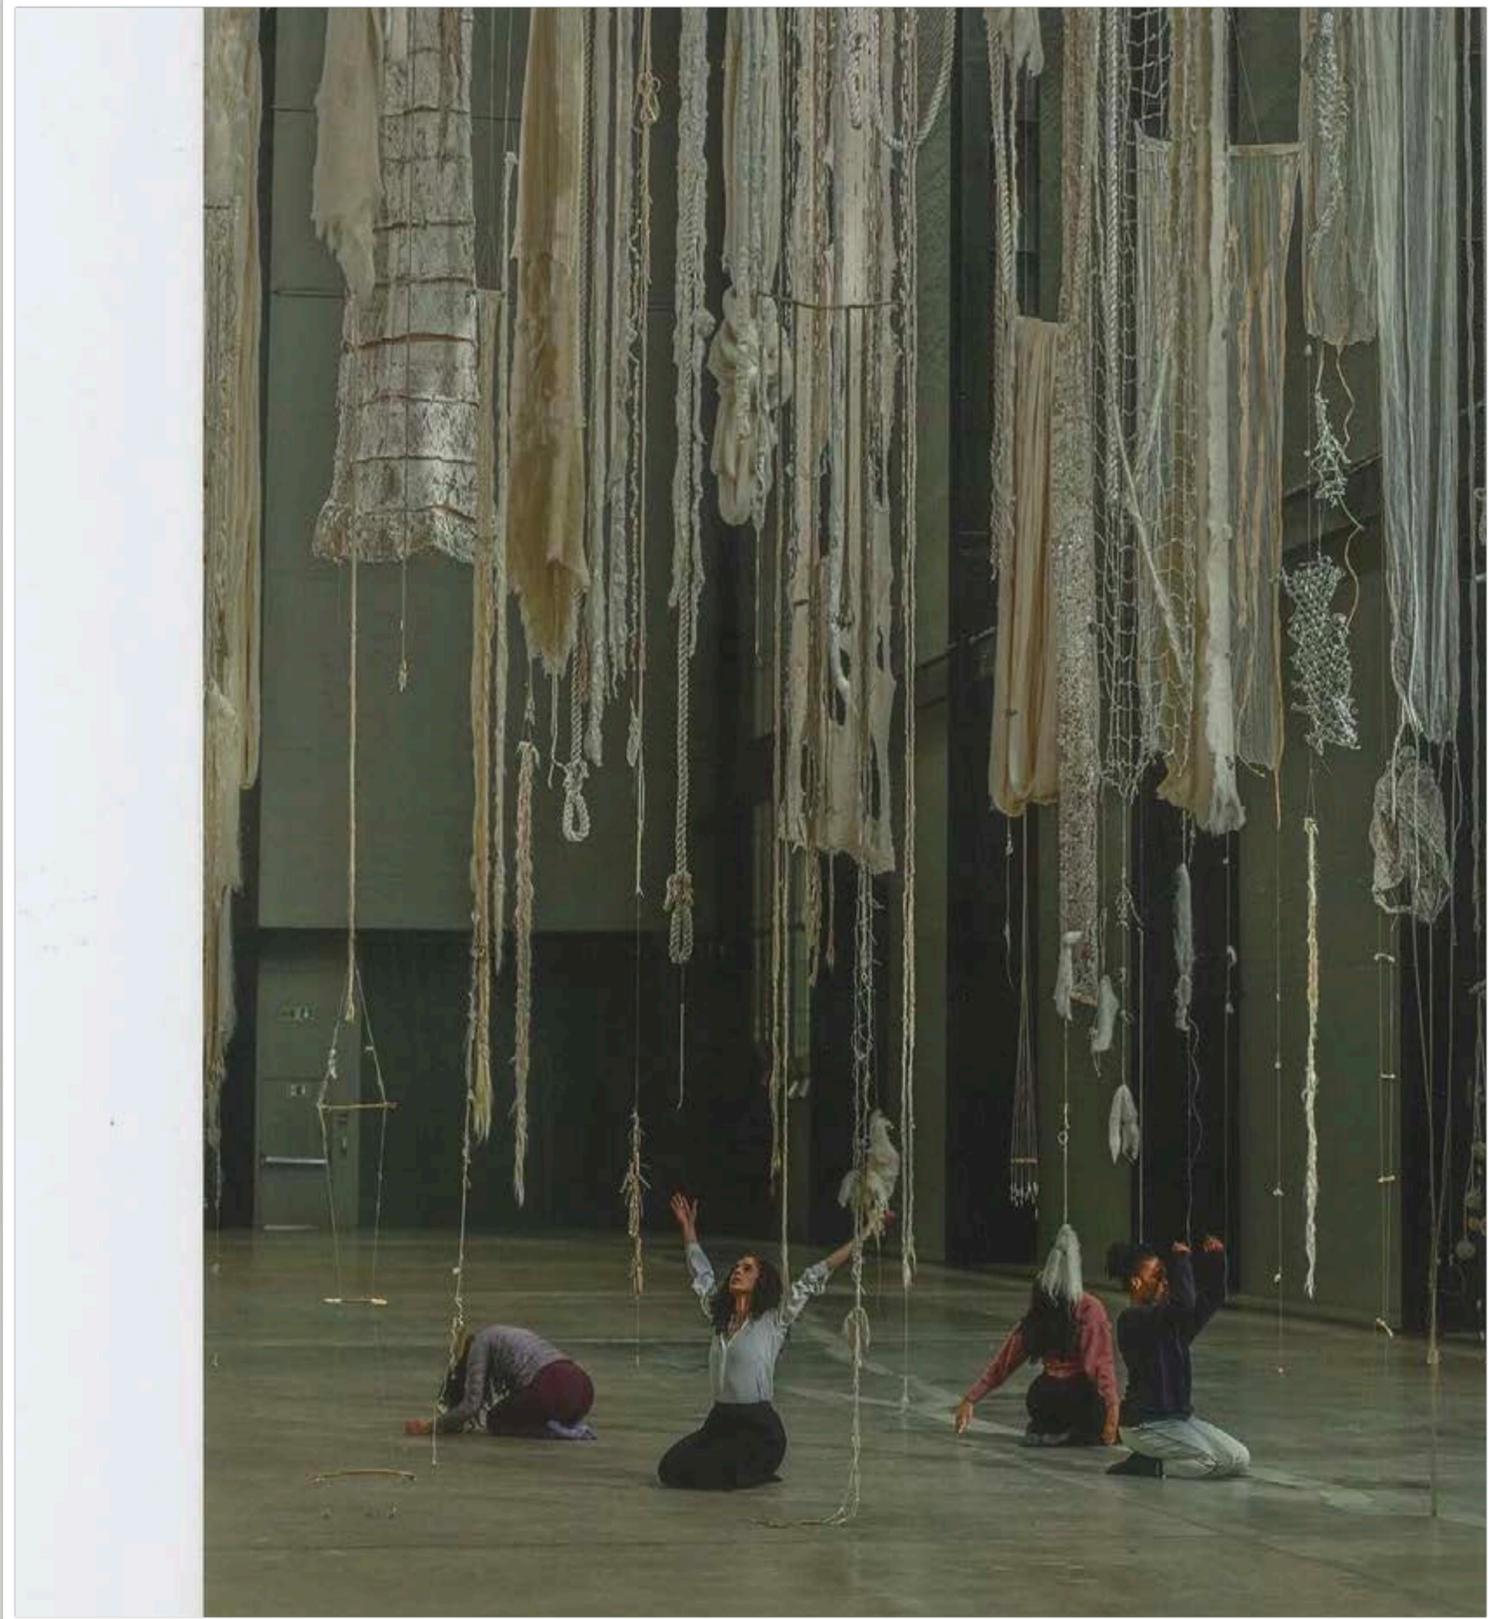

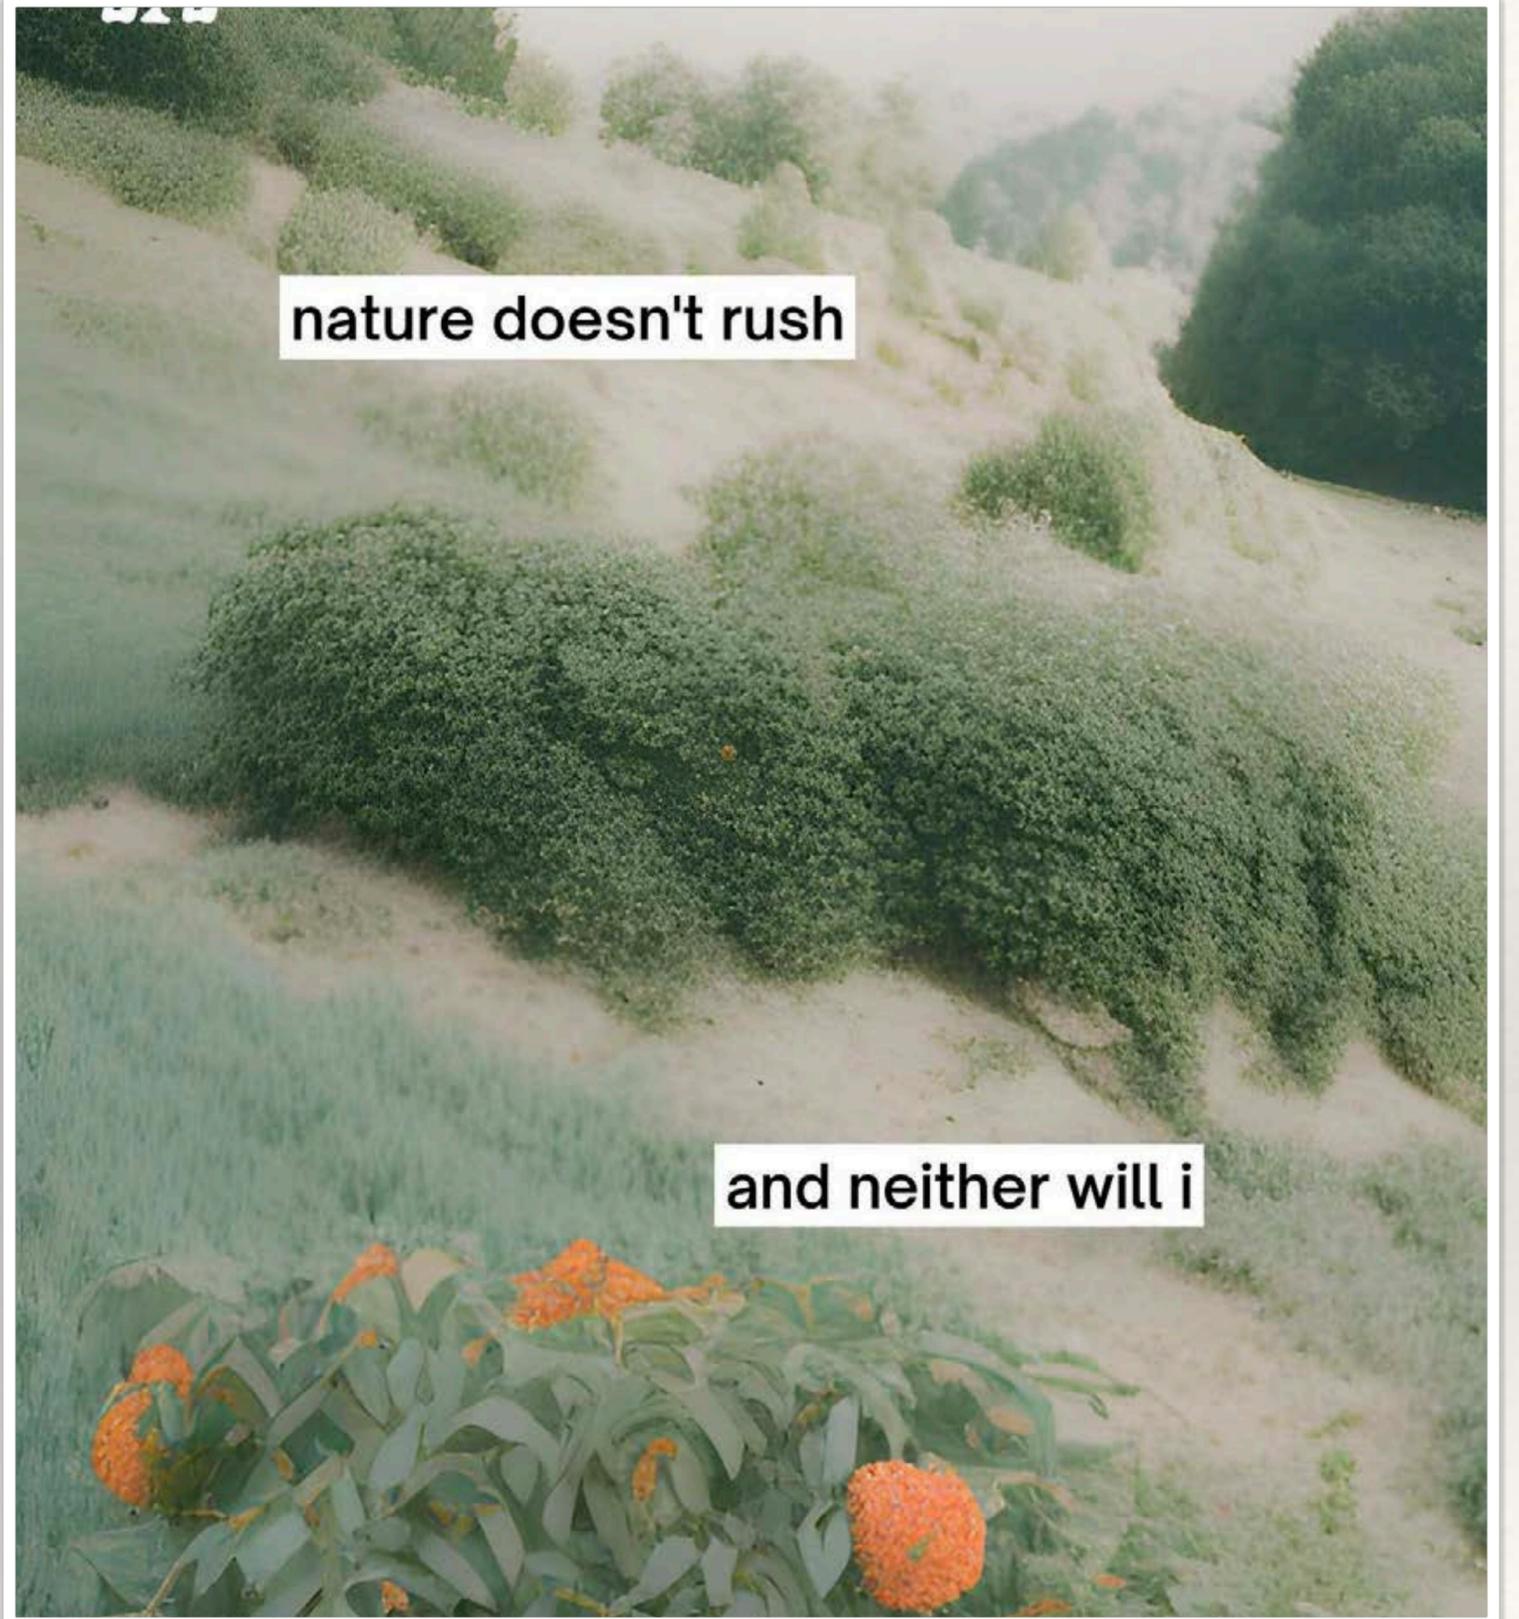

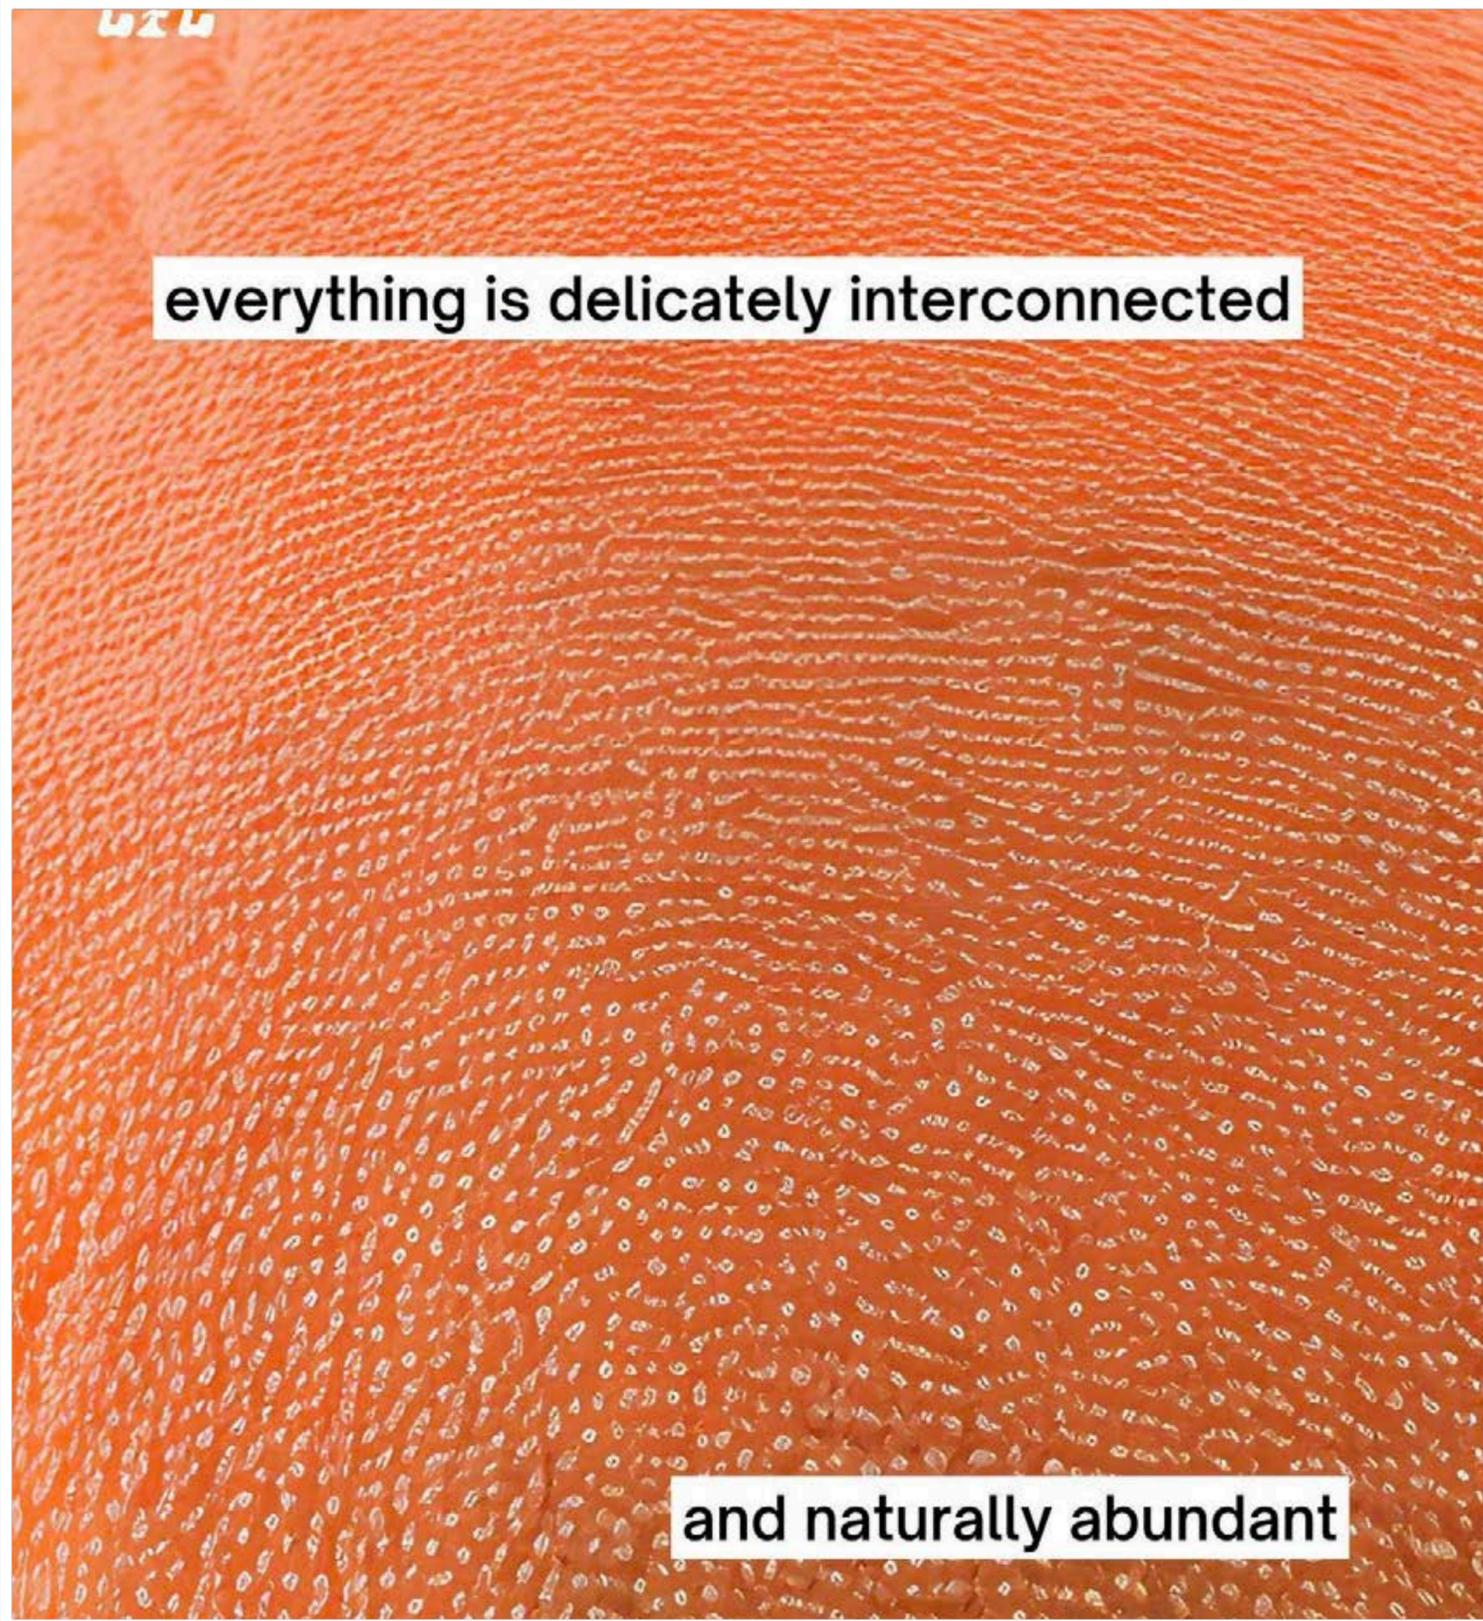

humans aren't bad for the earth

capitalism is

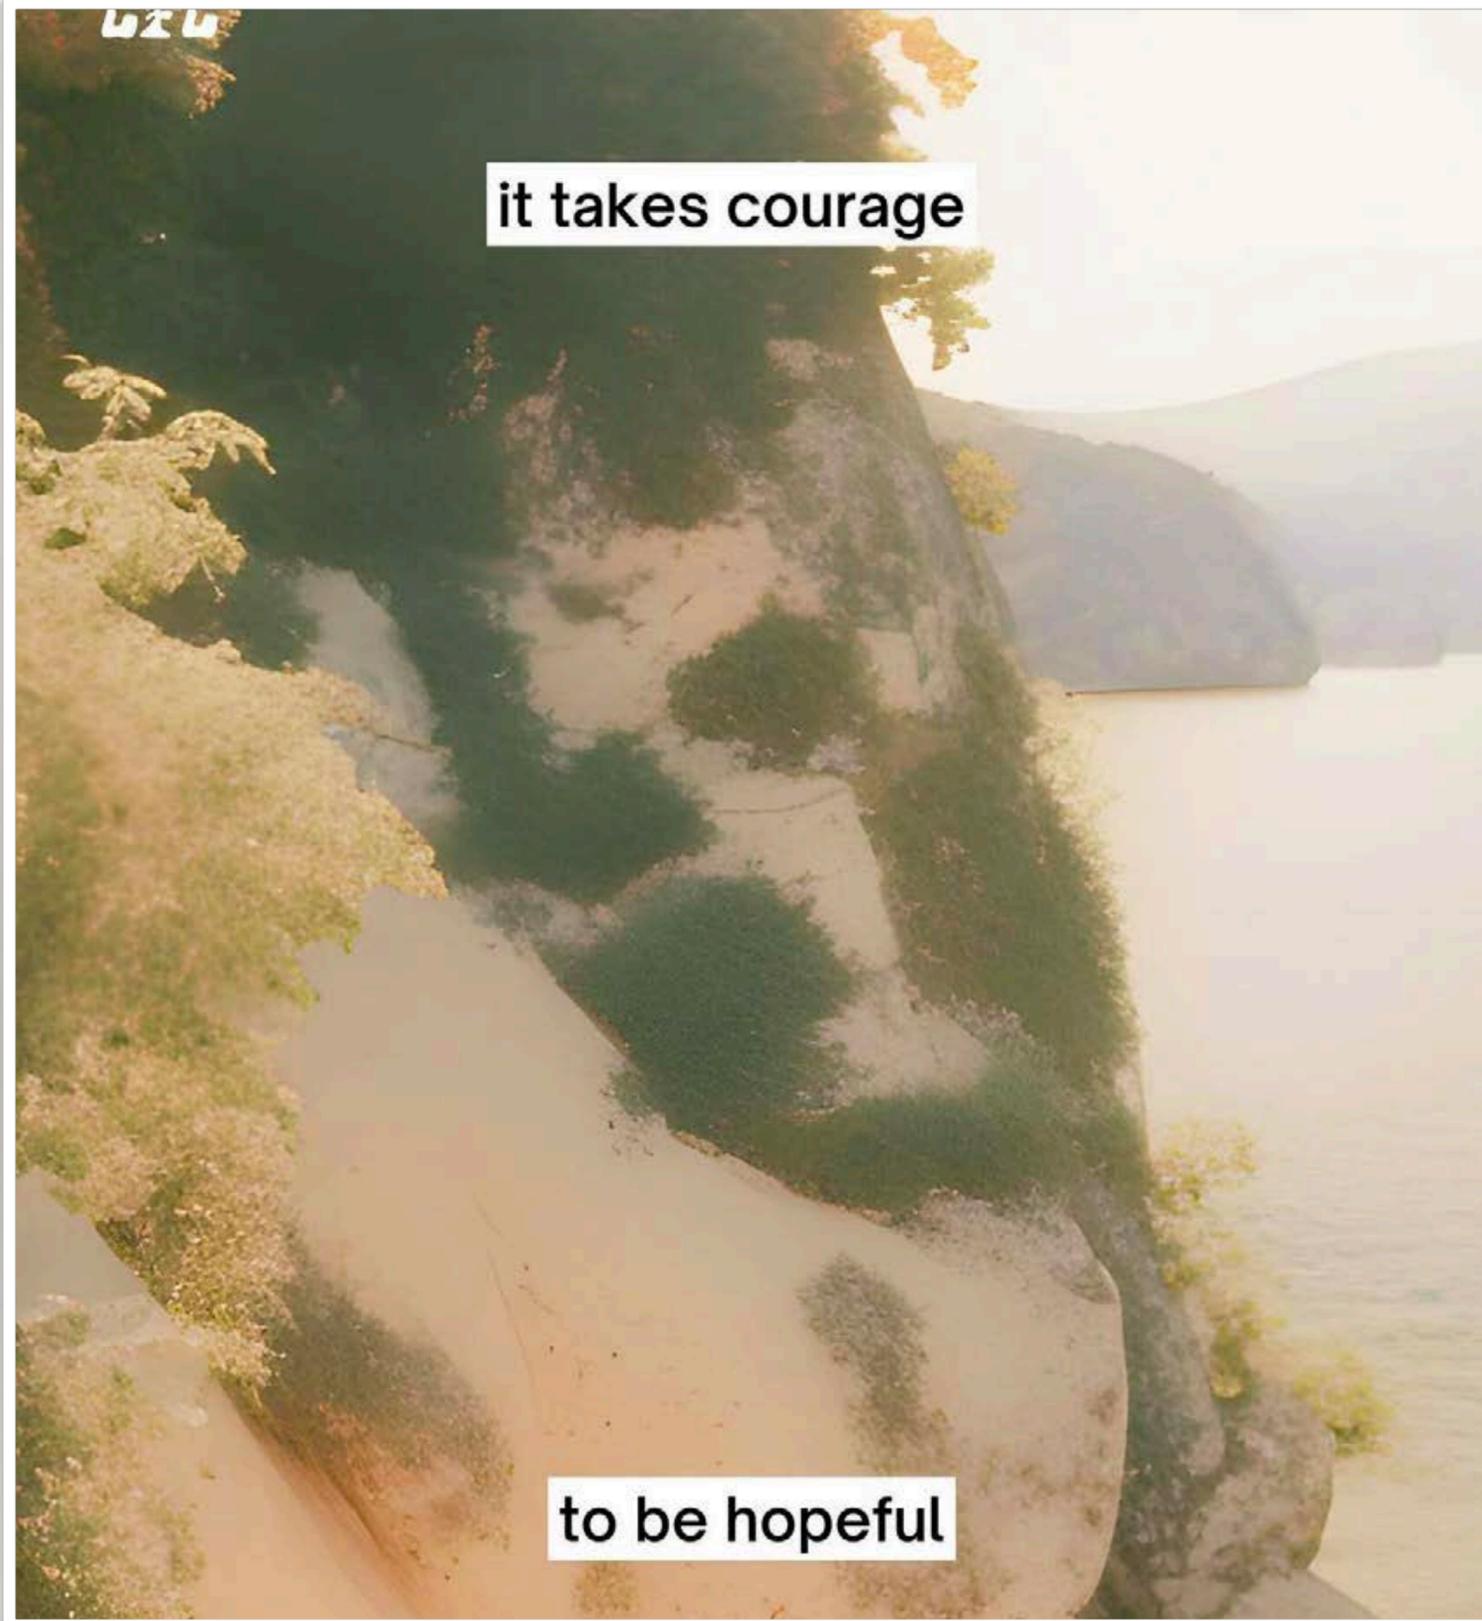

nature doesn't rush

and neither will i

everything is delicately interconnected

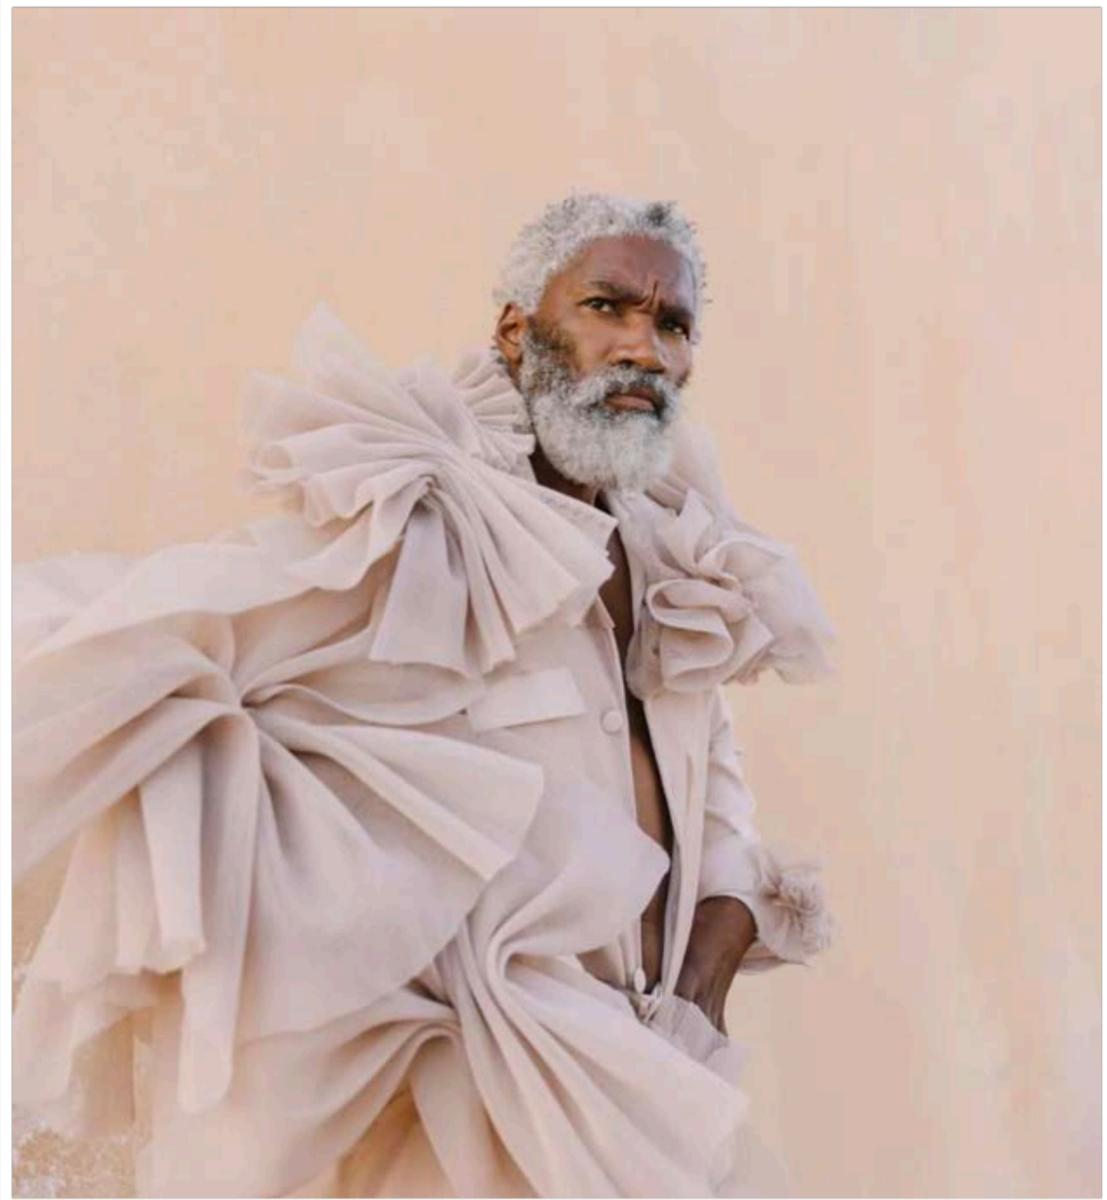

and naturally abundant

it takes courage

to be hopeful

**THE COMPETITION WHERE  
YOU 'SPACE OUT' AND DO  
ABSOLUTELY NOTHING**

**take it very seriously  
that it is our job  
to imagine the world  
that we want, because  
that imagination  
is the first step  
towards moving  
forward."**

THE  
LEAVES  
FALL

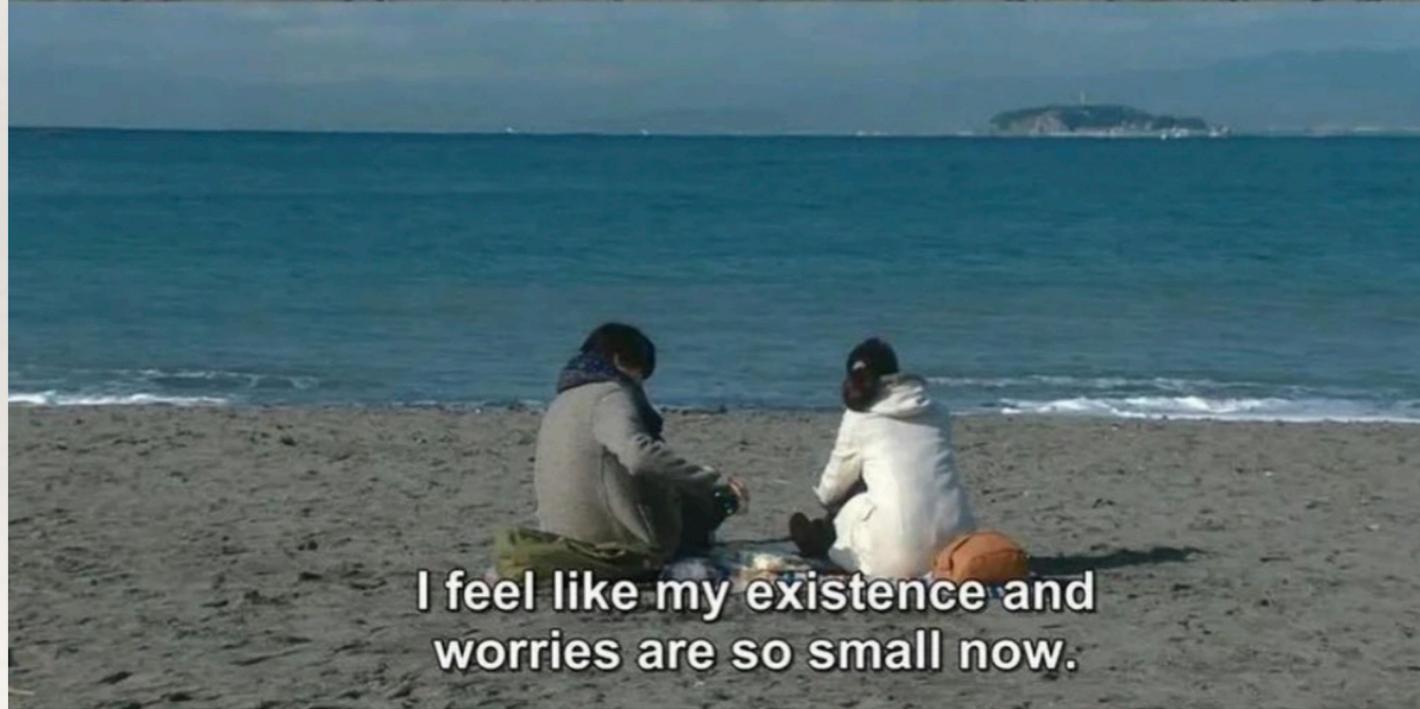

**In a world desperate to speed  
up, there is a beauty in the  
harmony of slowing down.**

**This is true resistance.**

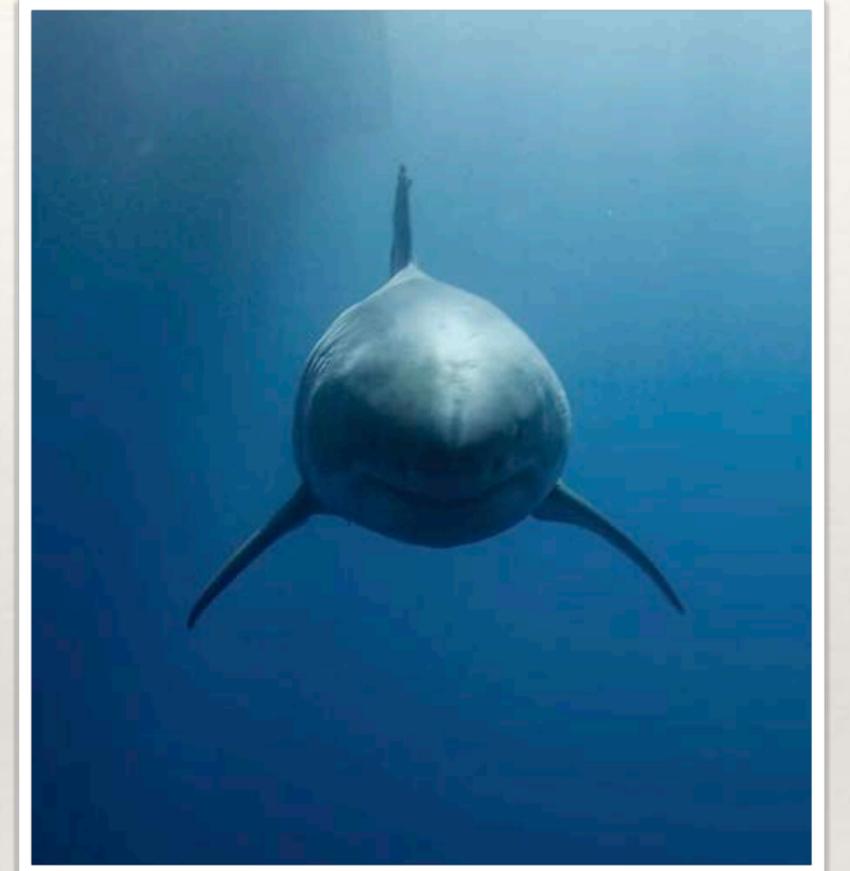

>>

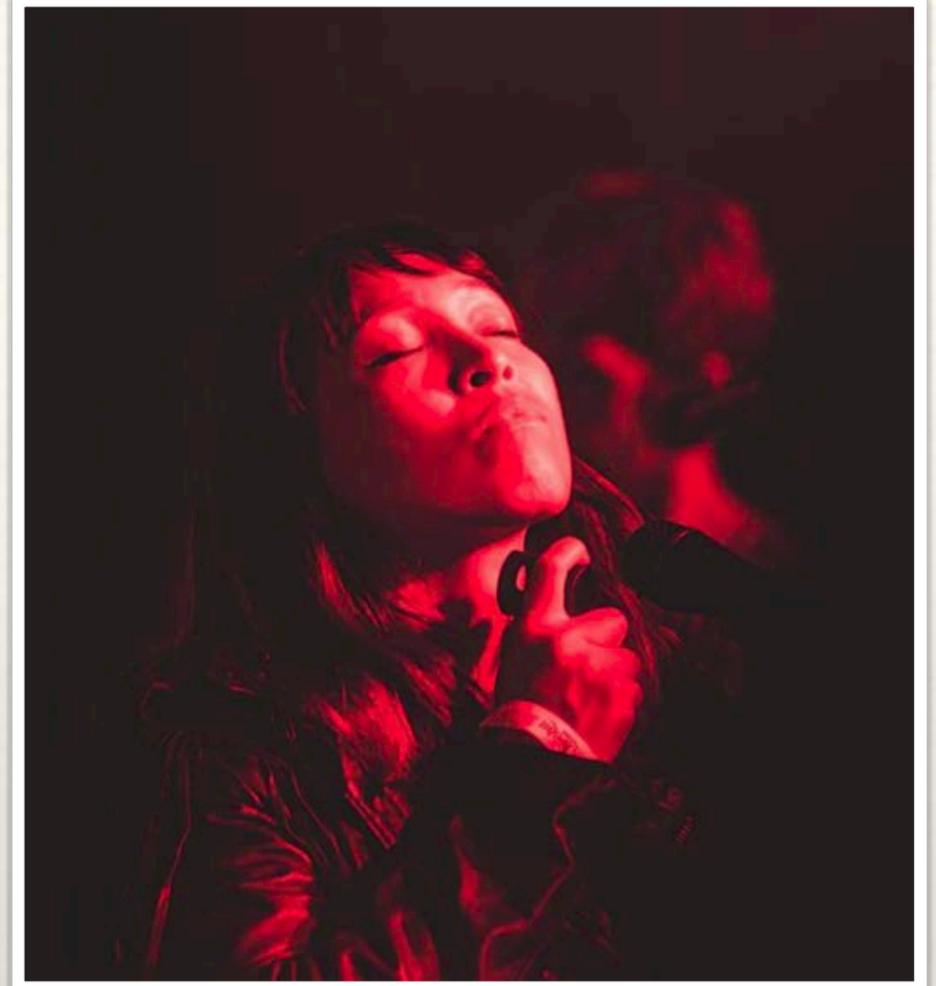

The ocean is so nice.

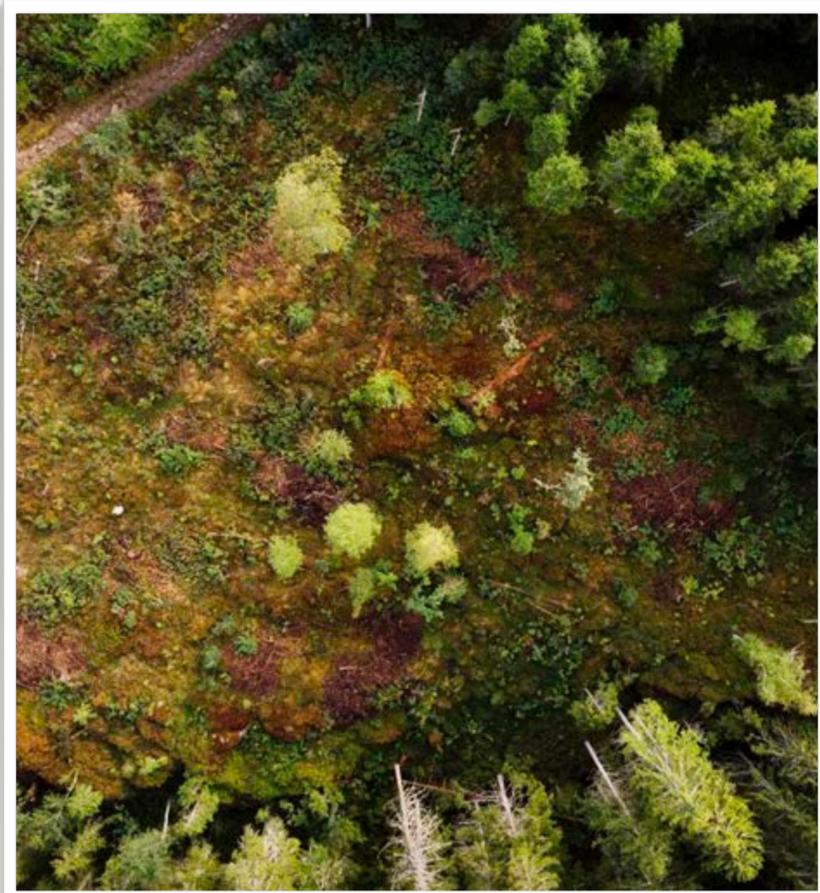

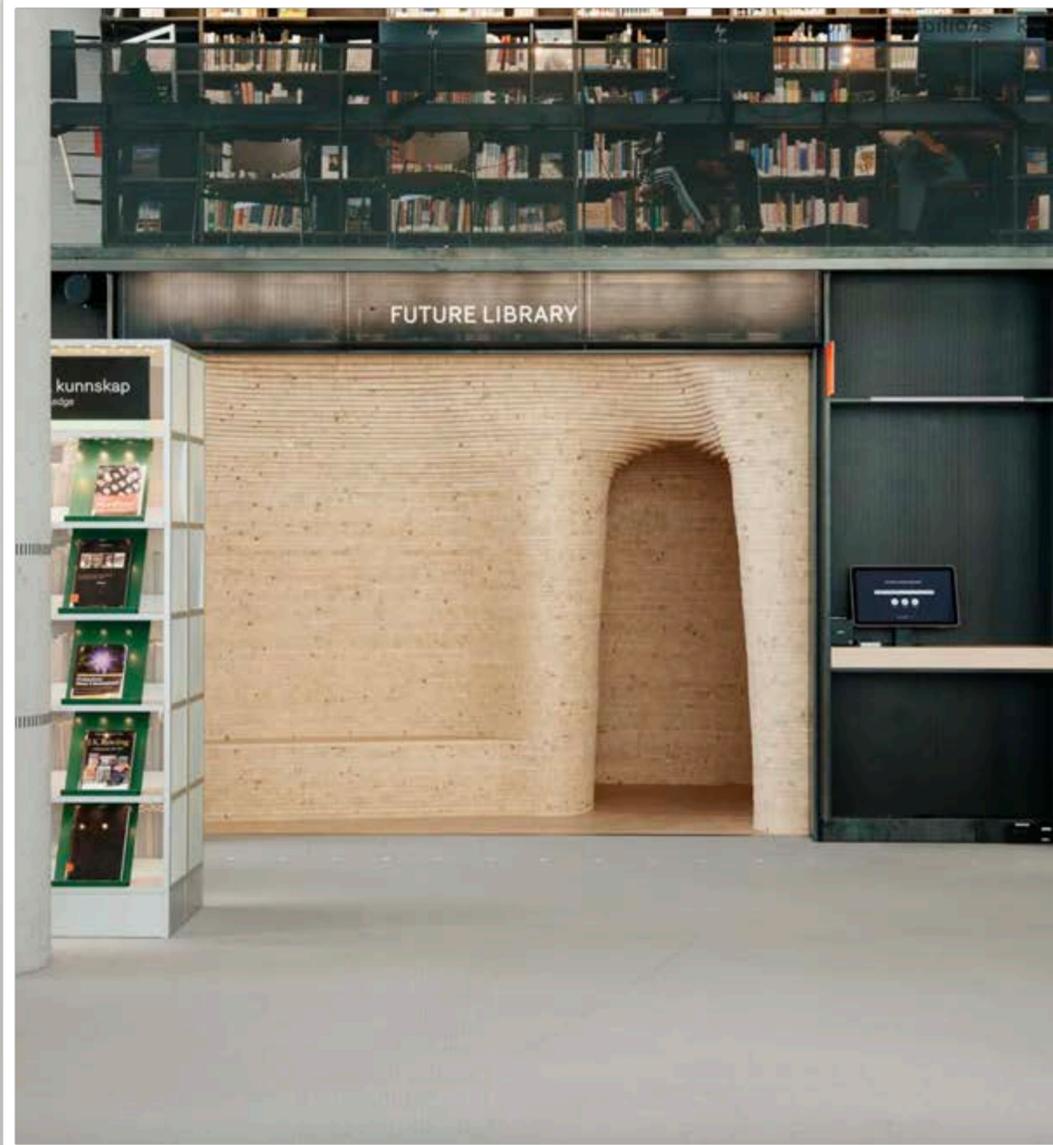

I feel like my existence and  
worries are so small now.

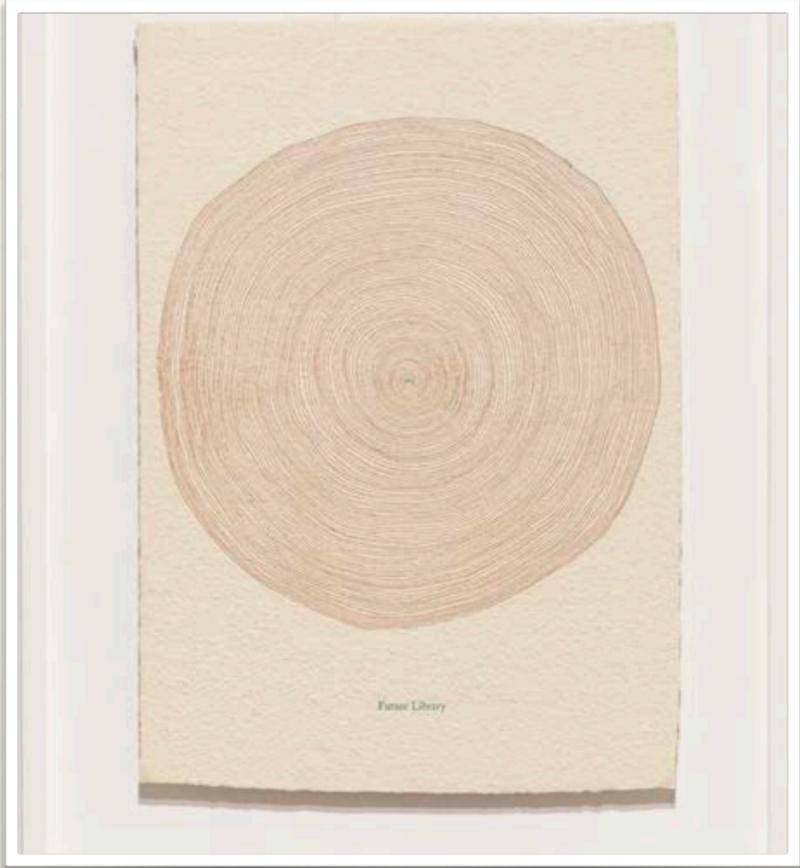

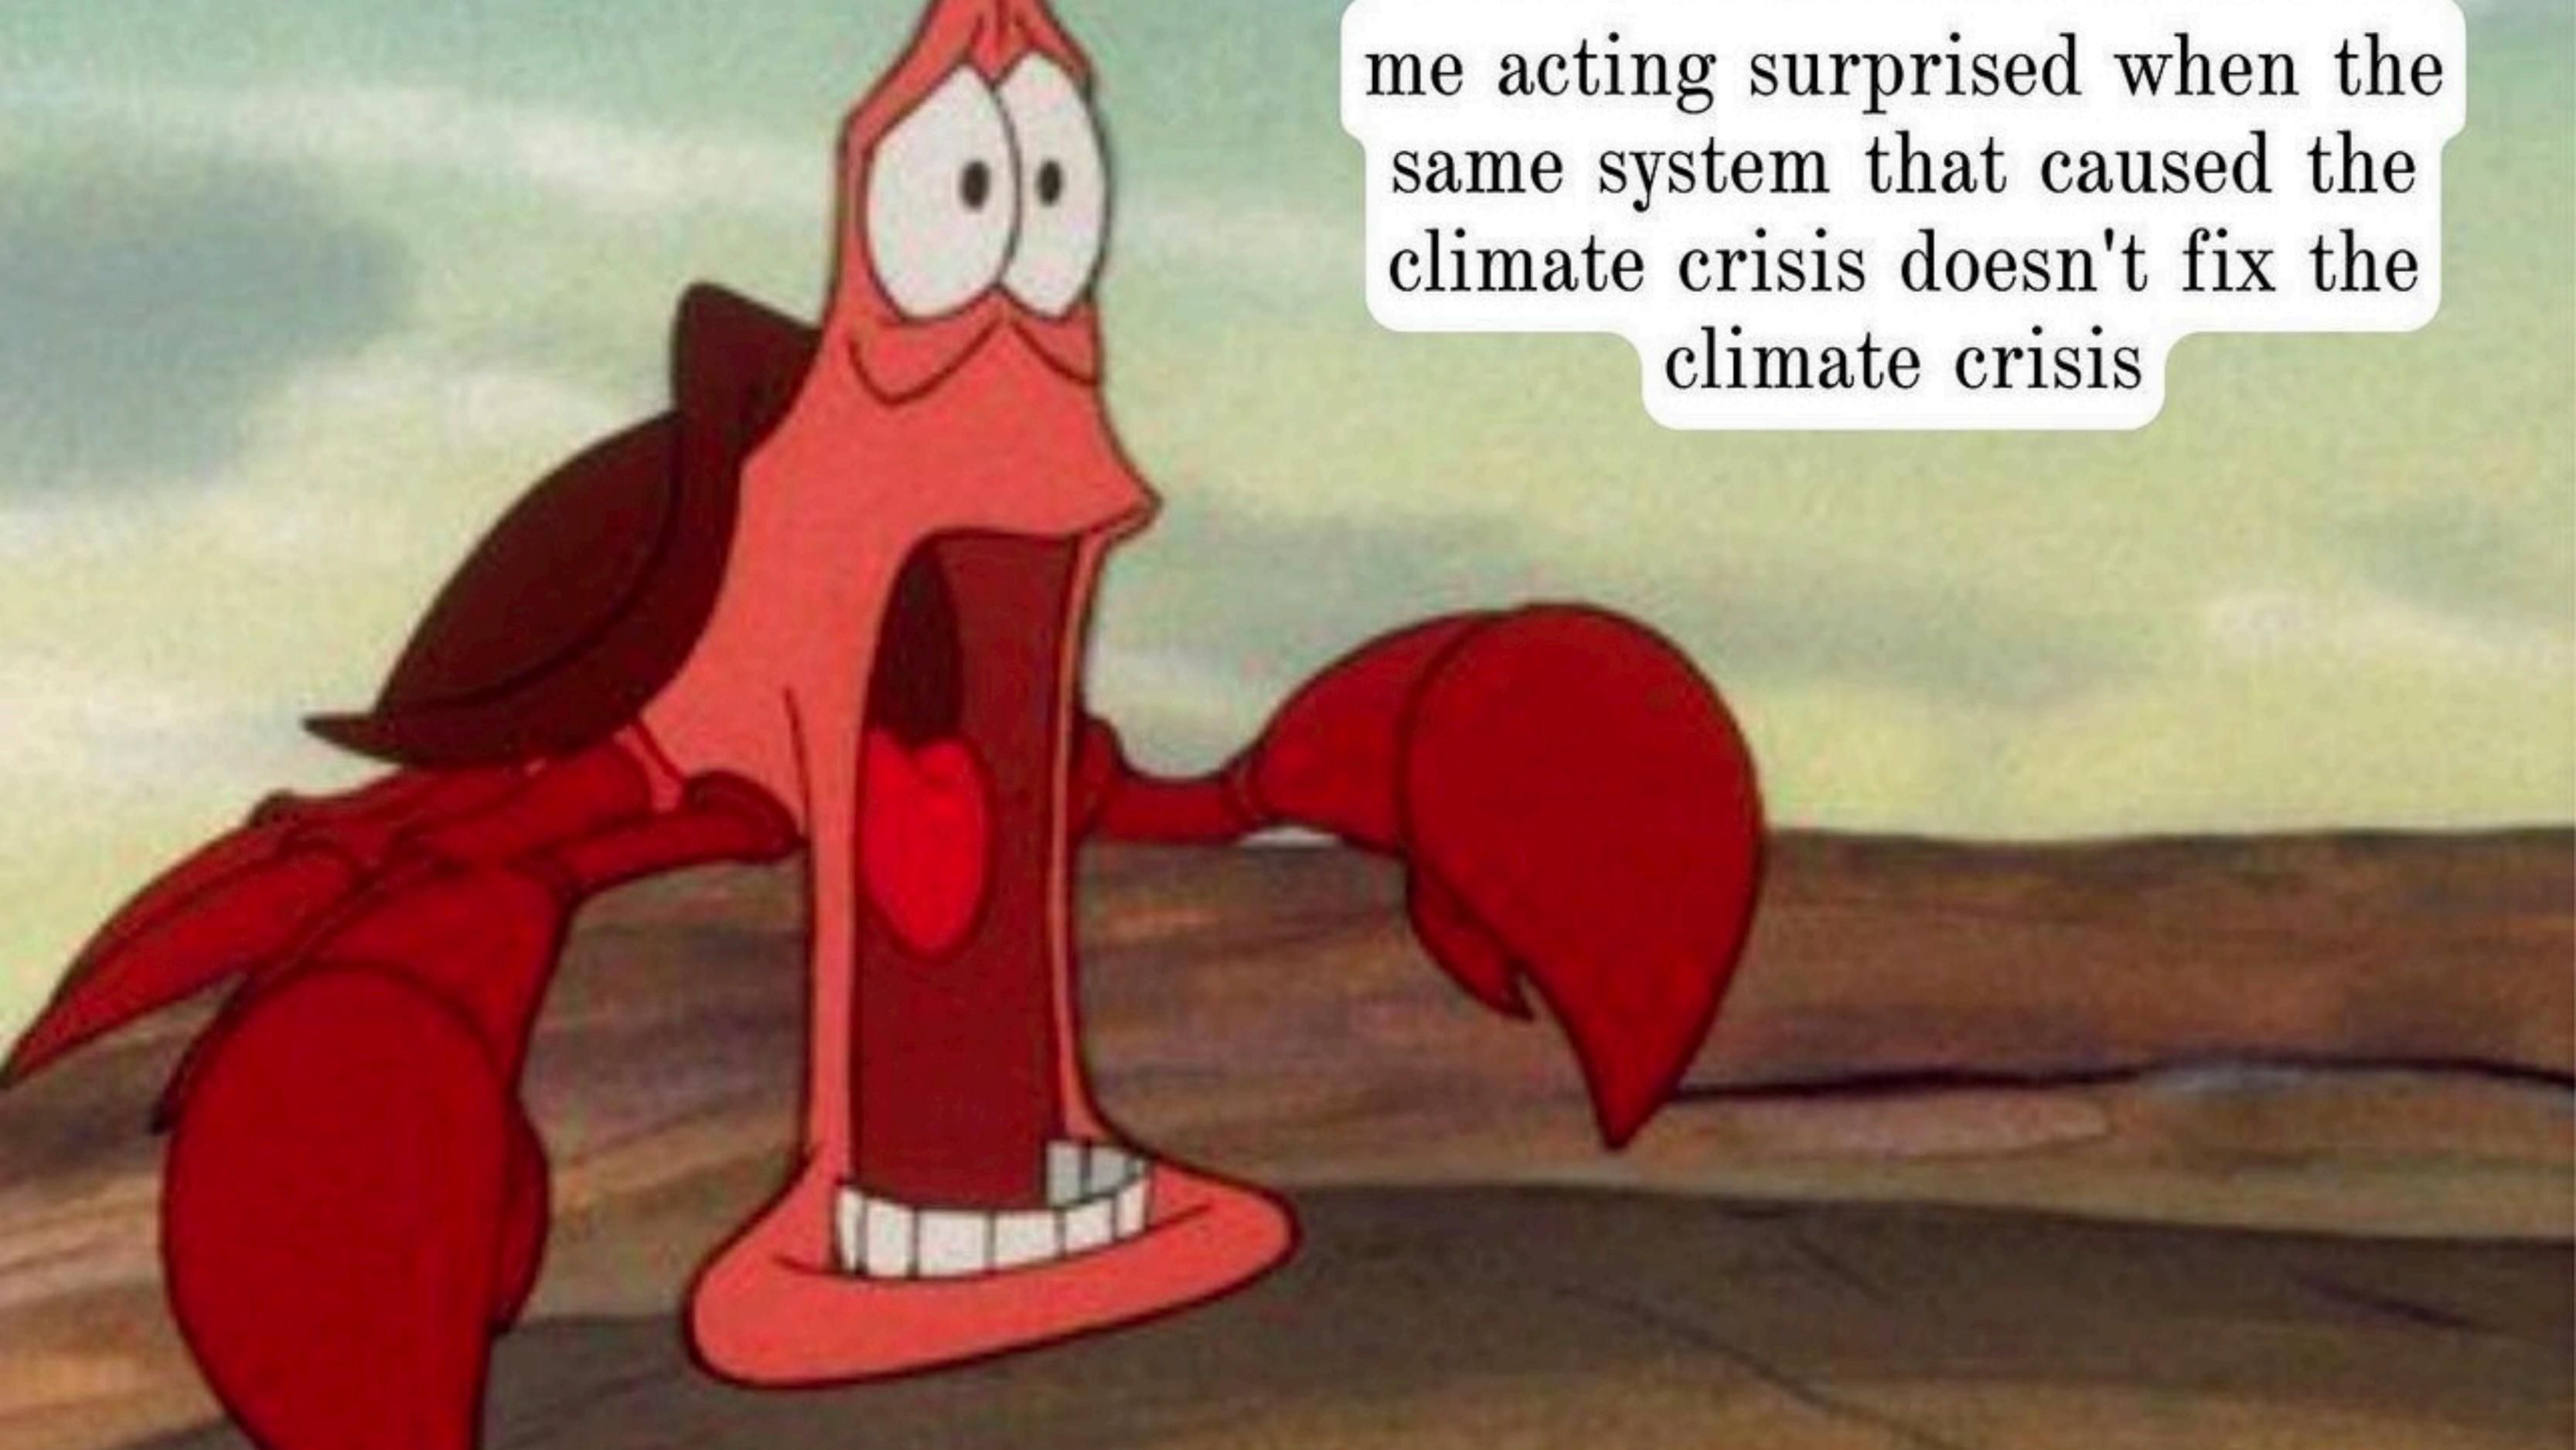

me acting surprised when the same system that caused the climate crisis doesn't fix the climate crisis

experimenting with how we are hardlined about being soft

how we are serious about playing

how quickly we can connect to the power of slowness

all in search of connecting to our joy for the natural world.
